OBJECTIVE

To obtain a position where I can apply and expand my knowledge of computer science while working alongside coworkers passionate about achieving our mission.

EDUCATION

MIT | Mathematics and Computer Science

2017 – 2021

Pursuing a double major in course 6 (computer science and electrical engineering) and course 18 (mathematics).

Phillips Academy

2013 – 2017

Inducted into the Cum Laude Society in the Winter of 2017 after being recognized as a member of the top 10% of the Senior class.

EXPERIENCE

Tech Intern | Ditto Labs

2014 – 2016

Helped oversee transition to new site design and backend. Improved SEO, updated UI, and organized internal data.

Course Designer | Phillips Academy

2016 – PRESENT

Worked with a professor to design an experimental hybrid course on philosophy and ethics. Oversaw transition of traditional classroom elements to the digital world.

SKILLS

- Research
- Statistics
- Linear Algebra
- Python, Java, JS, CSS, HTML
- Web Development
- Data Mining and Analysis

PROJECTS

NameVault | <https://namevault.io>

A website I developed with Django to track display names in several MMORPGs.

Tap Water Violations | <http://bit.ly/2wWDuzD>

Visualization of tap water violations by zip code in the US. Data gathered from the EWG. More information regarding this analysis can be found on my LinkedIn profile.
